

## Answering Reviewers

Dear Editorial Office and Reviewers,

Reviewer #1:

Thank you very much for the kind words of appreciation of our paper. We polished the English.

Reviewer #2:

Thank you very much for the kind words of appreciation of our paper. Concerning the comments:

I condensed the case presentation in two paragraphs (and final diagnosis) as proposed by Reviewer #2. I also added that the procedure was performed under sedation with propofol.

Grammatical errors were corrected.

Reviewer #3:

Thank you very much.

Science Editor:

I provided the original figure documents and edited in Word. Reprocessing should be possible. The figures are uploaded in .ppt format.

Kind regards

Maximilian Gericke
