Dear editor,

Please find attached files of revised manuscript in word format

**Title:** Analysis of MRI Misdiagnosis before Operation to Minimal-fat Angiomyolipoma

**Author:** Xiao-Long Li<sup>1</sup> ,Li-Xin Shi<sup>2</sup>,Qi-Cong Du<sup>3</sup>, Wei Wang<sup>4</sup>,Li-Wei Shao <sup>5</sup>,Ying-Wei Wang<sup>6</sup>

**Name of Journal:** World Journal of Clinical Cases

**Manuscript NO:** 54743

First of all, thank you for your careful guidance of this article. Revision has been made according to the suggestions of the reviewer:

**Reviewer: 01133666**

There are certain angiomyolipomas lack a sufficient amount of fat or the certain angiomyolipomas do not contain adipose tissue which cannot be distinguished by the naked eye on MRI. These angiomyolipomas are called minimal-fat angiomyolipoma because they are lack of typical angiomyolipoma imaging characteristic and are often misdiagnosed as renal cell carcinoma before surgery, thus causing worthless surgical removal of the carcinoma. And it brings unnecessary burden to the patients. In this study, the authors analyzed the MRI imaging features of minimal-fat angiomyolipoma and the causes of misdiagnosis by MRI before operation. Overall the study is very interesting. 1. Title reflects the main subject of the manuscript. 2. Abstract summarizes and reflects the work described in the manuscript. 3. Key words reflects the focus of the manuscript. 4. Methods are clearly described in detail. Examination method are reasonable. 5. Results are well display. Table and figure are good, a minor editing is required for table 1. 6. Discussion. Reasonable. A little long. Please short it. 7. References are updated. Format requires update according to the journal's guideline. 8. Manuscript overall is well written. A minor language polishing should be corrected.

Thank you for your advice.

After receiving the comments, we read the article carefully and found some small loopholes in the language of the article and made modifications. Some changes were made on discussion and table 1.Cut out part of the discussion and modified the table 1 in page

6, 7,9,10.The picture has also been modified to delete a picture. Name the picture figure 1

**Reviewer: 02460097**

Well designed study with ineresting results. please short the discussion. a minor langauge editing is required.

We thank the reviewer for bringing these errors to our attention.

Some changes were made on lines 2,5,17,22of page 9 and lines 13,21 of page 10.

**Reviewer: 02856362**

THIS IS AN INTERESTING STUDY ABOUT THE MRI MISDIAGNOSIS BEFORE OPERATION TO MINIMAL-FAT ANGIOMYOLIPOMA. THIS STUDY IS WELL WRITTEN, AND I RECOMMENTD TO ACCEPT IT AFTER A MINOR LANGUAGE EDITING. THANK YOU VERY MUCH.

Thank you for your advice.

Some changes were made on lines 3 of page 9.

According to the suggestion, we changed the relavant description.

Thank you again for publishing our manuscript in the World Journal of Clinical Cases.

Sincerely Yours,

Ying-Wei Wang,**MD, PhD,**
