Differences in the prognosis of early gastric cancer ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5298480>

Dec 13, 2016 · Kaplan–Meier survival **curves according to sex in older patients** (>55 years): (a) overall survival; (b) relapse-free survival. We additionally evaluated the causes of **death** in our **GC** series. During the study period, 350 of the male patients in our cohort **died**: 53 (15.1%) due to GC progression, 249 (71.3%) from a GC-unrelated cause, and 47 (13.4%) of an unknown cause.

Survival and prognosis of young adults with gastric cancer

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6131359>

Sep 11, 2018 · For gastric cancer, the majority of patients are diagnosed after **60 years** of age. Nevertheless, the stomach cancer incidence among younger individuals appears to be increasing **2, 3**, and recent studies have reported conflicting results regarding survival in this set of **patients 5, 6, 9**.
