Dear Editors-in-Chief of World Journal of Stem Cells,

No statistical analyses were performed for the invited manuscript (#55027) entitled "How Old is Too Old? In vivo engraftment of human peripheral blood stem cells cryopreserved for up to 18 years - implications for clinical transplantation and stability programs". Thus, no biostatistician was involved in preparing the manuscript.

Best regards,

W. Scott Goebel, MD, PhD
Associate Professor of Clinical Pediatrics
Division of Pediatric Hematology/Oncology
Pediatric Stem Cell Transplantation Program
Department of Pediatrics

Medical Director, Cell, Immunotherapy and Transduction Facility

Medical Director, Pediatric Apheresis Collection Facility
