Human embryonic stem cells as an in vitro model for studying the developmental origin of type 2 diabetes

Dear Dr. Ma,

We are submitting the revised manuscript entitled " Human embryonic stem cells as an in vitro model for studying the developmental origin of type 2 diabetes " for re-consideration of publication in World Journal of Stem Celss. We thank the reviewer's comments on our manuscript. We have added PMID to the reference list, uploaded the grant award letter and the original figure in PPT format.

Thank you for your consideration.

Yours sincerely,

Yin Lau Lee, Ph D
