## Cerebral Amyloid Angiopathy: Similarity in African ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6103628>

Cerebral amyloid angiopathy (CAA) of the A $\beta$  type is variably present in the brains of patients with Alzheimer's disease (AD). CAA contributes to cognitive decline and increases the risk of lobar hemorrhage; because both AD-typical dementia and lobar hemorrhage are more common in African-Americans than in Caucasians, we postulated that African-Americans with AD might be particularly ...

## Diagnosis of Cerebral Amyloid Angiopathy: Evolution of the ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5892842>

The history of how to diagnosis cerebral amyloid angiopathy (CAA) tells the story of the disease itself. CAA is defined by histopathology—deposition of  $\beta$ -amyloid in the cerebrovasculature—and through the 1980s the disorder was only diagnosed in patients with available brain tissue from hematoma evacuation, biopsy, or most commonly post-mortem exam. 1 Introduction of the imaging-based ...

## Cerebral Amyloid Angiopathy Pathology and Cognitive ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3228518>

Cerebral amyloid angiopathy (CAA) is common in older persons, 1,2 and in a small number, particularly when severe, has been related to serious adverse neurological conditions, most commonly hemorrhage. 3 CAA has also been implicated in dementia, 4 infarcts, 5 and more recently brain microbleeds. 6 A general role for CAA in cognitive impairment in aging is controversial
