To Whom It May Concern

Ref: MS#55114 - The Impact of Diabetes Mellitus and Cardiometabolic Syndrome on the Risk of Alzheimer's Disease Among Postmenopausal Women

The manuscript was re-read and edited carefully by one of the co-authors, namely me, Ed Gracely, PhD. I am a native speaker of English and have been working at Drexel University (or a precursor university that merged with Drexel) for more than 30 years in teaching, research and mentoring medical and graduate students. I have published more than 90 scientific papers, reviews, and book chapters in my native English language.

Yours truly,

Ed Gracely, Ph.D.
