This is the certificate to prove that the following work is partially supported by Program of B. Braun Medical (CN-0486-AEC-VSE2019169). The funders had no role in study design, data collection, data analysis, data interpretation, or writing of the report.

Title:

Chinese expert consensus and practice guideline of totally implantable access port for digestive tract carcinoma

Authors:

Ke-cheng Zhang, Lin Chen, Department of General Surgery & Institute of General Surgery, the First Medical Centre, Chinese People's Liberation Army General Hospital, Beijing 100853, China.

On behalf of Chinese Research Hospital Association Digestive Tumor Committee, Chinese Association of Upper Gastrointestinal Surgeons, Chinese Gastric Cancer Association, and Gastrointestinal Surgical Group of Chinese Surgical Society Affiliated to Chinese Medical Association

密级：公开

科研任务书

项目名称：利用组学技术筛选循环长链非编码 RNA
用于胃癌精准诊断和个体化预后预测的转化应用研究

项目编号：QNF19055

项目级别：院内项目

项目类型：青年扶持项目

项目主管/分管部门：解放军总医院

主要承担单位：中国人民解放军总医院第一医学中心

项目负责人：张珂诚

研究起止时间：2019.12~2021.12
