### [Peripherally inserted central catheters in infants and ...](#)

<https://onlinelibrary.wiley.com/doi/full/10.1111/aas.12024>

Dec 17, 2012 - **Peripherally inserted central catheters (PICCs)** have been used for decades in neonatal populations for intermediate- to long-term IV medical and fluid therapy, where they have been associated with a high **insertion** success and a low risk of **catheter**-related complications. 2, 3 New materials, improved **insertion** techniques and a variety of ...
