Dennis A Bloomfield
Editor-in-Chief
World Journal of Clinical Cases

Re: Manuscript NO: 55317

Dear Dr Bloomfield:

Thank you for inviting us to submit a revised draft of our manuscript entitled, "Late-onset non-islet cell tumor hypoglycemia: a case report to World Journal of Clinical Cases. We also appreciate the time and effort you and each of the reviewers have dedicated to providing insightful feedback on ways to strengthen our paper. Thus, it is with great pleasure that we resubmit our article for further consideration.

To facilitate your review of our revisions, the following is a response to the comment delivered in your letter dated 2020-11-3.

Reviewer #1:

Specific comments and recommendations: - Figure 2: The western blot image is of poor quality. It would be better if the authors could present a better-quality image.

A. We have amended this by changing the content on Figure 2A. We have carried out the western blot analysis to figure out a specific high-molecular-weight form of IGF-II in both serum and tumoral tissue.

Again, thank you for giving us the opportunity to strengthen our manuscript with your valuable comment. We have worked hard to incorporate your feedback and hope that this revision persuades you to accept our submission.

Sincerely yours,

Shunichi Matsumoto, MD, PhD
