

Answering to reviewers

Dear Editor,

Thank you for your valuable feedback and the comments of the reviewers. We have provided point-by-point responses to the suggestions and comments.

We feel that the manuscript has highly profited by addressing the reviewer comment, and it is now much more concise.

We would be very pleased if you considered this manuscript suitable for publication in *World Journal of Orthopedics*.

Looking forward to hearing from you;

Sincerely,

Prof. Dr. Jean Yves Lazennec, MD, PhD

Reviewer #1:

Specific Comments to Authors: The author reviews the history of cervical disc and lumbar disc replacement and analyzes the advantages and disadvantages of various prostheses. It is a meaningful review. There are some problems that need to be modified.

Answer: Thank you very much for the hint. In accordance with the suggestion of the reviewer, I modified the images to improve the quality and other problems.
