

Shaukat Khanum Memorial Cancer Hospital and Research Centre

### **To Whom It May Concern**

This manuscript titled: **Forkhead box P3 and indoleamine 2,3-dioxygenase co-expression in Pakistani triple negative breast cancer patients**, has been re-read carefully by three of our co-authors, Dr. Kashif Asghar, Dr. Asif Loya and Dr. Muhammad Usman Rashid.

Dr. Kashif Asghar has completed his post-graduate degree from University of Nantes, France and did his doctoral research work at Newcastle University, United Kingdom and has published various scientific papers, reviews and a book chapter in English.

Dr. Asif Loya is Medical Director of Shaukat Khanum Memorial Cancer Hospital and Research Centre, Lahore Pakistan and Diplomate at American Board of Pathologists. He has completed his post-graduate fellowships at MD Anderson Cancer Center, Houston, Texas and University of Florida/HSC Jacksonville, Florida. He has also authored multiple scientific papers, books and book chapters in English.

Dr. Muhammad Usman Rashid has done his doctoral research work at German Cancer Research Center and has published various scientific papers in English.

Sincerely,

#### **Dr. Kashif Asghar (PhD)**
