

August 6, 2020

Dear Editors:

We appreciate your professional suggestions to revise our manuscript that has been thoroughly revised. We have searched and studied all the related references that you have suggested and other related referenced, which have been added in the manuscript. Furthermore, the clinical application of Adipose derived mesenchymal Stem Cells (AD-MSCs), Stromal Vascular Fraction Cells (SVFs), Human Follicle Stem Cells (HFSCs) and autologous growth factors like to Platelet Rich plasma (PRP) have been added and discussed in the revised version, in addition, the role of platelet rich plasma, fat graft, the SVFs and AD-MSCs in improving the wound healing when used alone or in combining with other products like hyaluronic acid has been discussed.

Once again, we thank sincerely thank you for your professional review for our manuscript.

Best regards,

Shiyan Ren, M.D, Ph.D.
