SPECIFIC COMMENTS TO AUTHORS

The manuscript describes a case of massive pulmonary hemorrhage after polytrauma with associated chest trauma. The different sections of the article are correctly exposed. The case presented illustrates an infrequent cause of massive pulmonary hemorrhage after severe pulmonary trauma and describes a treatment with flexible fiberoptic bronchoscopy and ECMO that may be useful for other hospitals where these techniques are available. The bibliographic review is correct and the update is acceptable (30% of articles from the last 5 years). The figures adequately illustrate the case.
