SPECIFIC COMMENTS TO AUTHORS

In the abstract, 'Albumin-bound paclitaxel (nab-paclitaxel) is a solvent-free taxane that has been approved for the treatment of some cancers such as breast, non-small cell lung and pancreatic,'pancreatic cancer,the word 'cancer' should not be omitted in my opinion.

SPECIFIC COMMENTS TO AUTHORS

I have with interest this manuscript that concerns an important topic. Overall, the manuscript is well written and it might be of interest to the readers of World Journal of Clinical Oncology. I do suggest just to improve the figures by showing: 1. the first diagnosis of cholangiocarcinoma before surgery 2. the recurrence in S4 as well as in the peritoneum before chemotherapy 3. the response of disease in S4 as well as in the peritoneum after chemotherapy

SPECIFIC COMMENTS TO AUTHORS

Dear Authors Congratulations in writing up this case report. It is well written and a comprehensive case presentation was performed. However, it has nothing new to add in this field. Regards
