PEER-REVIEW REPORT

Name of journal: World Journal of Gastroenterology

Manuscript NO: 56135

Title: To develop and validate the combination of 3-lncRNA for the prognosis of patients with gastric cancer

Reviewer's code: 03768526

Position: Peer Reviewer

Academic degree: MD, PhD

Professional title: Professor

Reviewer's Country/Territory: Japan

Author's Country/Territory: China

Manuscript submission date: 2020-04-18

Reviewer chosen by: Jia-Ping Yan

Reviewer accepted review: 2020-05-21 00:52

Reviewer performed review: 2020-05-24 04:14

SPECIFIC COMMENTS TO AUTHORS

The paper is interesting, and presents a new method for predicting survival for gastric cancer. The methods looks promising, but the authors need to compare this method with prognostic factors already existing. Also the authors need to give some indications for the practical aplicaton of the model or to describe the studies that are needed to introduce the technique in the clinical practice.
