SPECIFIC COMMENTS TO AUTHORS

The author needs to write amount of lignocaine (in ml/gm) and type of steroid with dose. The pain score need to be mentioned in VAS. After injection, how much improved should be expressed in VAS. Only flexion was painful or flexion-external rotation or flexion-internal rotation...please provide details. The amount flexion and rotation with abduction/adduction at which it was painful need to be mentioned. Any dynamic test done during arthroscopy need to be mentioned. The author need to mention neurovascular status after surgery. The author need to mention the muscle power particularly the flexor group after IPT release.
