Biostatistics Statement

The statistical analysis was approved by Dr. Arturo Reding-Bernal, who is part of the co-authors of this article entitled *Experimental model standardizing Polyvinyl Alcohol Hydrogel to simulate endoscopic Ultrasound and EUS-Elastography*. Dr. Reding-Bernal has a Bachelor of Actuarial Sciences (Applied Mathematics) from the National Autonomous University of Mexico (UNAM), he also has a PhD in Public Health Sciences with area of concentration in Epidemiology from the National Institute of Public Health of Mexico. Currently, the doctor is professor of Biostatistics in the Master in Health Sciences at UNAM and has extensive experience in this regard. Dr. Reding-Bernal works as a researcher in Medical Sciences in the Research Directorate from which I am the head.
