Title: Comment on "Pediatric living donor liver transplantation decade progress in Shanghai: Characteristics and risks factors of mortality"

Editor in Chief

Comment

I have reviewed the Peer-Review Report, the full text of the manuscript, the relevant ethics documents, and the English Language Certificate, all of which have met the basic publishing requirements of the World Journal of Gastroenterology, and the manuscript is conditionally accepted. I have sent the manuscript to the author(s) for its revision according to the Peer-Review Report, Editorial Office's comments and the Criteria for Manuscript Revision by Authors.

Comment

This is a very detailed letter to the editor which contains many observations that I share.

Response

Thank you very much for your positive comments.

Comment

You pointed out very well the incompleteness of the original article mainly for statistical analysis. I will point out only two in this letter. -First, the authors' signatures were missing from the 'COPYRIGHT LICENSE AGREEMENT' file. How about signing, scanning and uploading as a PDF file? -Second, in the final summary, replacing 'than' with 'then' in the last sentence seems natural in context. Thank you.
