Manuscript Type: CASE REPORT

Adult metaplastic hutch diverticulum with robotic-assisted diverticulectomy and reconstruction: A case report

Che H Yang, Yi S Lin, Yen C Ou, Wei C Weng, Li H Huang, Chin H Lu, Chao Y Hsu, Min C Tung

Abstract

BACKGROUND

Hutch diverticulum arises from the compromised muscular development of the ureteral

(PDF) Robot-Assisted Bladder Diverticulectomy

https://www.researchgate.net/publication/261441588_Robot-Assisted_Bladder_Diverticulectomy

Presentation of **case**: We present to the best of our knowledge, the first **case** of sequential **robotic-assisted** bladder **diverticulectomy** (RABD) combined **with robotic-assisted** ...

Multiple bladder diverticula treated with robotic approach ...

<https://europepmc.org/article/MED/29416289> ▾

Jan 01, 2018 · We present the **case** of a 56-year-old male with low urinary tract symptoms that are complicated by urinary retention. During the diagnostic protocol, multiple bladder **diverticula** are documented and surgical treatment is proposed through robot assisted laparoscopic **diverticulectomy** and cystoscopy.
