**English-language editing certificate**

To whom it may concern,

This is to confirm that the manuscript by Asad Izziddin Dajani and Branko Popovic entitled “Essential phospholipids for nonalcoholic fatty liver disease associated with metabolic syndrome: a systematic review and network meta-analysis” was written by native-English language speakers at outline and first draft stage, with any subsequent revisions either made or edited by a native-English language speaker, all of whom are professional medical writers. Their assistance is acknowledged in the Acknowledgements section, per Good Publication Practice Guidelines (version 3).

Kind regards,

Catherine Rees
