

Dear editors and reviewers,

I am very grateful to your comments for the manuscript. According with your advice, we amended the relevant part in manuscript. Some of your questions were answered below.

1. The manuscript has been modified by native speakers to meet the grammatical standards.
2. The format of references in the manuscript has been completely revised, and DOI and PMID have been added throughout.
3. The original pictures in the manuscript are typeset in PPT format. The survival curve is made with SPSS software. The text content in the picture must be typeset in SPSS. Therefore, I provide a survival curve without text content for the editorial department.
4. The forms in the text are submitted in Excel format.
5. The "Author's Contributions" and "Article Highlights" have been added to the manuscript.

We tried our best to improve the manuscript and made some changes in the manuscript. These changes will not influence the content of the paper. We appreciate for editors and reviewers' warm work earnestly, and thank you very much for your comments and suggestions.

Yours  
Sincerely  
Zuohong Ma
