Mesenchymal Stromal Cell Secretome for Severe COVID-19 ...

<https://pubmed.ncbi.nlm.nih.gov/32283815>

From the end of 2019, the world population has been faced the spread of the novel coronavirus **SARS-CoV-2** responsible for COVID-19 **infection**. In approximately 14% of the patients affected by the novel coronavirus, the **infection** progresses with the development of pneumonia that requires mechanical ven ...

Mesenchymal Stromal Cells for the Treatment of SARS-CoV ...

<https://www.clinicaltrials.gov/ct2/show/NCT04345601>

Apr 14, 2020 · This is a study for patients who have **respiratory infection** caused by **SARS-CoV-2** that have not gotten better. Because there is no standard treatment for this **infection**, patients are being asked to volunteer for a gene transfer research study using **mesenchymal stem cells** (MSCs).

Mesenchymal Stromal Cell Secretome for Severe COVID-19 ...

<https://www.mdpi.com/2073-4409/9/4/924>

From the end of 2019, the world population has been faced the spread of the novel coronavirus **SARS-CoV-2** responsible for COVID-19 **infection**. In approximately 14% of the patients affected by the novel coronavirus, the **infection** progresses with the development of pneumonia that requires mechanical ventilation. At the moment, there is no specific antiviral treatment recommended for the COVID-19
