

## CARE Checklist – 2016: Information for writing a case report

Topic		Item	Checklist item description	Line/Page
Title	Key Words	1	The words “case report” should be in the title along with the area of focus	✓
		2	Four to seven key words—include “case report” as one of the key words	✓
Abstract		3a	Background: What does this case report add to the medical literature?	✓
		3b	Case summary: chief complaint, diagnoses, interventions, and outcomes	✓
		3c	Conclusion: What is the main “take-away” lesson from this case?	✓
Introduction		4	The current standard of care and contributions of this case—with references (1-2 paragraphs)	✓
		5	Information from this case report organized into a timeline (table or figure)	✓
Patient Information		6a	De-identified demographic and other patient or client specific information	✓
		6b	Chief complaint—what prompted this visit?	✓
		6c	Relevant history including past interventions and outcomes	✓
Physical Exam		7	Relevant physical examination findings	✓
		8a	Evaluations such as surveys, laboratory testing, imaging, etc.	✓
Diagnostic Assessment		8b	Diagnostic reasoning including other diagnoses considered and challenges	✓
		8c	Consider tables or figures linking assessment, diagnoses and interventions	✓
		8d	Prognostic characteristics where applicable	✓
Interventions		9a	Types such as life-style recommendations, treatments, medications, surgery	✓
		9b	Intervention administration such as dosage, frequency and duration	✓
		9c	Note changes in intervention with explanation	✓
		9d	Other concurrent interventions	✓
Follow-up and Outcomes		10a	Clinician assessment (and patient or client assessed outcomes when appropriate)	✓
		10b	Important follow-up diagnostic evaluations	✓
		10c	Assessment of intervention adherence and tolerability, including adverse events	✓
Discussion		11a	Strengths and limitations in your approach to this case	✓
		11b	Specify how this case report informs practice or Clinical Practice Guidelines (CPG)	✓
		11c	How does this case report suggest a testable hypothesis?	✓
		11d	Conclusions and rationale	✓
Patient Perspective		12	When appropriate include the assessment of the patient or client on this episode of care	✓
Informed Consent		13	Informed consent from the person who is the subject of this case report is required by most journals	✓
Additional Information		14	Acknowledgement section; Competing Interests; IRB approval when required	✓
