The effect of containment measures on the COVID-19 ...
https://voxeu.org/article/effect-containment-measures-covid-19-pandemic

Countries have implemented several containment measures to halt the spread of COVID-19 and limit the number of fatalities. This column, using daily data on coronavirus cases and deaths as well as on real-time containment measures implemented by countries, argues that containment measures have been very effective in flattening the 'pandemic curve'.

The effect of human mobility and control measures on the ...

The effect of human mobility and control measures on the COVID-19 epidemic in China By Moritz U. G. Kraemer , Chia-Hung Yang , Bernardo Gutierrez , Chieh-Hsi Wu , Brennan Klein , David M. Pigott , Open COVID-19 Data Working Group , Louis du Plessis , Nuno R. Faria , Ruoran Li , William P. Hanage , John S. Brownstein , Maylis Layan , Alessandro ...

Effects of Proactive Social Distancing on COVID-19 ...
https://wwwnc.cdc.gov/eid/article/26/9/20-1932...

Cities across China implemented stringent social distancing measures in early 2020 to curb coronavirus disease outbreaks. We estimated the speed with which these measures contained transmission in cities. A 1-day delay in implementing social distancing resulted in a containment delay of 2.41 (95% CI 0.07
