2 Revision has been made according to the suggestions of the reviewer

- (1) I suggest clarifying whether in the paragraph entitled "Immunomodulatory mechanisms of *H. pylori* in skin autoimmune diseases" these mechanisms reported refer to skin or any other non-intestinal organs. As it was written, it looks general and not skin-specific.

Answer: As suggested, the paragraph entitled "Immunomodulatory mechanisms of *H. pylori* in skin autoimmune diseases" has been changed as "Immunomodulatory mechanisms of *H. pylori* in autoimmune diseases", because the described mechanisms refer to any non-intestinal organs (including skin).

3 References and typesetting were corrected
