SPECIFIC COMMENTS TO AUTHORS

Thank you for great manuscript about peripheral nerve tumors of the hand: clinical features, diagnosis, and treatment. This manuscript is valuable to readers to show the differences the PNT compared with MPNST, Thank you.

SPECIFIC COMMENTS TO AUTHORS

Please qualify the statement that it is always mass effect that causes symptoms from PNTs. I do not believe this to be correct - pain can also be neuropathic or infective or inflammatory for example. Differential diagnoses need to be listed eg foreign body inclusion granuloma, flexor tendon cysts, ganglion, mucous cysts, etc.
