

This document certifies that the manuscript

Immunophenotypic Characteristics of Multipotent Mesenchymal Stromal Cells that Affect the Efficacy of Their Use in the Prevention of Acute Graft Versus Host Disease

prepared by the authors

Nataliya Petinati, Nikolay Kapranov, Yulia Davydova, Alexey Bigildeev, Olesya Pshenichnikova, Dmitriy Karpenko, Nina Drize, Larisa Kuzmina,...

was edited for proper English language, grammar, punctuation, spelling, and overall style by one or more of the highly qualified native English speaking editors at AJE.

This certificate was issued on **May 28, 2020** and may be verified on the [AJE website](#) using the verification code **FAD9-5F3B-7C7E-7290-86EA**.

Neither the research content nor the authors' intentions were altered in any way during the editing process. Documents receiving this certification should be English-ready for publication; however, the author has the ability to accept or reject our suggestions and changes. To verify the final AJE edited version, please visit our verification page at [aje.com/certificate](#). If you have any questions or concerns about this edited document, please contact AJE at support@aje.com.
