

**Response to reviewers related to Manuscript NO: 57049, World Journal of Clinical Infectious Diseases**

Dear editor and reviewers,

Thank you for your comments that helped to increase manuscript's quality. Please see below the responses to the issues raised in the peer-review report.

**Reviewer #1:**

Scientific Quality: Grade C (Good)

Language Quality: Grade B (Minor language polishing)

Conclusion: Minor revision

Specific Comments to Authors: This manuscript highlighted the very common & general social issue Physical health directly related to our mental health, this is the universal fact. Some medical cases data related to diabetic and obese patients of six month may be added in article. Suggest some indoor games, exercises and especially yoga practices in this article will make it better. sentences in this article are little bit long.

**Response:**

Some medical cases data were added to the article, as requested. Suggestions about exercises were also made. All sentences were revised and some of them were shortened. Moreover, data about COVID-19 infection was updated. All changes to the text are highlighted in yellow.

**(1) Science Editor:**

1 Scientific quality: The manuscript describes an opinion review of the Covid-19 risk comorbidities: time to reappraise our physical inactivity habits. The topic is within the scope of the WJCC. (1) Classification: Grade C; (2) Summary of the Peer-Review Report: The manuscript highlighted the very common & general social issue Physical health directly related to our mental health, however, some medical cases data related to diabetic and obese patients of six month may be added in it; and (3) Format: There are no tables and figures. A total of 15 references are cited, including 4 references published in the last

3 years. There are no self-citations. 2 Language evaluation: Classification: Grade B. 3 Academic norms and rules: The authors provided the signed Conflict-of-Interest Disclosure Form and Copyright License Agreement.
