Re: Authorization for Publication of Case Report

Dear Editor,

This letter is to inform you that the patient TH has provided verbal consent over the phone to give Dr. Loba Alam and her coauthors at Atlantic health System – Overlook Medical Center permission to publish, reproduce, and redistribute the attached case report regarding “Pericardial Effusion with Tamponade: An Uncommon Presentation Leading to the Diagnosis of Eosinophilic Granulomatosis Polyangiitis”. The patient is aware that the case report does not mention name or address of the patient, however it does reflect the patient’s medical condition, medical care, gender, age, and medical history.

The patient is aware that the authors plan to submit this case report for publication in a medical journal for educational purposes. The patient is aware that she will not be paid in any manner for this publication. The patient is aware that she is required to give consent and may refuse to do so.

Patient Verbal Signature: TH  
Verbal Signature Obtained by: Loba Alam MD  
Verbal Signature Witnessed by: Robert Fishberg, MD, FACC

Sincerely,

Loba Alam MD
