SPECIFIC COMMENTS TO AUTHORS

Fu et al. provided an interesting review concerning psychological effects of Covid-19 pandemic on caregivers. The subject is "trend" but remains very recent. There are only one major point and some minor points to revise: - essentially, there are some data concerning the actual crisis, notably in Italia, it would be nteresting to look at their experience ; - be careful on key words : "Adequate protective gear protective gear" ; - there are some orthograph and syntax mistakes.
