[\(PDF\) Amnesia due to Bilateral Fornix Infarction](#)

<https://www.researchgate.net>

[/.../318121767_Amnesia_due_to_Bilateral_Fornix_Infarction](#)

Case Description-A 71-year-old female with **acute-onset amnesia** had neuroimaging studies showing ischemic **infarction** of both columns and the body of the **fornix** ...

[Amnesia due to Fornix Infarction - ResearchGate](#)

<https://www.researchgate.net/publication>

[/12483675_Amnesia_due_to_Fornix_Infarction](#)

We report the **case** of a patient with severe semantic knowledge **impairment and anterograde amnesia** after **bilateral ischemic lesion** of the fornix and of the **basal forebrain** ...

[\[PDF\] Case Report Fornix Infarction Resulting in Persistent ...](#)

<https://www.jscimedcentral.com/NeurologicalDisorders/neurologicaldisorders-4-1110.pdf>

Infarction of the **fornix resulting in anterograde amnesia** . is rare, and can also include symptoms of perseveration, disinhibition and other cognitive abnormalities [2]. We report two **cases of bilateral fornix infarction**, one which occurred spontaneously presumably **due** to ...

[Diffusion tensor tracking of fornix infarction](#)

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2077964>

Focal damage to the fornices is uncommon and may be **due** to surgical removal of ventricular cysts and tumours. 1 We **report a case** of **bilateral fornix infarction** with reduced fractional anisotropy values at 3 T after anterior communicating artery aneurysm clipping. A healthy 33-year-old woman was admitted to our hospital with the incidental finding of an anterior communicating artery ...

(PDF) Amnesia due to Bilateral Fornix Infarction

<https://www.researchgate.net/publication/318121767...>

Case Description-A 71-year-old female with **acute**-onset **amnesia** had neuroimaging studies showing ischemic **infarction** of both columns and the body of the **fornix** and the genu of the corpus callosum.

Amnesia due to Fornix Infarction - ResearchGate

<https://www.researchgate.net/publication/12483675...>

We report the **case** of a patient with severe semantic knowledge **impairment and anterograde amnesia after bilateral ischemic lesion** of the **fornix** and of the **basal forebrain** following surgical...

[PDF] Case Report Fornix Infarction Resulting in Persistent ...

<https://www.jscimedcentral.com/Neurological...>

Infarction of the **fornix resulting in anterograde amnesia** is rare, and can also include symptoms of perseveration, disinhibition and other cognitive abnormalities [2]. We report two **cases of bilateral fornix infarction**, one which occurred spontaneously presumably **due** to small vessel disease

Transient Global Amnesia Associated with an Acute ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4122058>

In this **case** report, we show that a **cingulate infarction** can **cause transient global amnesia** (TGA). **Cingulate gyrus infarct** is unusual and could cause other syndromes like astasia (inability to sit, stand, and walk) and **dysarthria**, probably as a result of the relationship with vestibular and cerebellar nucleus [...

[Adult bilateral idiopathic occlusion of ... - BMJ Case Reports](#)

<https://casereports.bmj.com/content/2018/bcr-2018-226332> ▾

Oct 25, 2018 - Idiopathic **bilateral** occlusion of foramina of Monroe is an extremely rare condition in adults and only few cases are reported. Currently, foraminoplasty is indicated as first-line treatment. We reported the **case** of a 52-year-old woman who presented with headache, instability and urinary incontinence. The imaging demonstrated **bilateral** occlusion of foramina of Monroe and consequent ...
