Retrospective Study

Greater awareness of biosimilars and shared decision-making among patients attending rheumatology practices in Colorado, USA: real-world data

Awareness of biosimilars and shared decision-making

Abstract

BACKGROUND

There is a lack of studies and educational programs focused on biosimilars and shared-decision making among patients diagnosed with various rheumatic diseases.

AIM

We aimed to improve knowledge and awareness of biosimilars and shared decision

Greater awareness of biosimilars and shared decision-making amc
