

PEER-REVIEW REPORT

Name of journal: World Journal of Gastroenterology

Manuscript NO: 57827

Title: Reactive oxygen species-induced activation of yes-associated protein-1 through the c-Myc pathway is a therapeutic target in hepatocellular carcinoma

Reviewer's code: 00057659

Position: Editorial Board

Academic degree: FACS, MD, PhD

Professional title: Chief Doctor, Professor

Reviewer's Country/Territory: Germany

Author's Country/Territory: South Korea

Manuscript submission date: 2020-06-26

Reviewer chosen by: Jia-Ping Yan

Reviewer accepted review: 2020-08-02 10:42

Reviewer performed review: 2020-08-02 10:44

Review time: 1 Hour

SPECIFIC COMMENTS TO AUTHORS

Authors have showed a connection between YAP-1 and the UPR through the c-Myc pathway during oxidative stress in HCC. Although the Hippo pathway and c-Myc pathway share many important functions, including the regulation of growth, death and survival in cells and the regulation of stress resistance and life spans in organisms. However, you should confirm some biological fuctions between YAP-1 and c-Myc?
