

## ANSWERING REVIEWERS

October 20, 2013

Dear Editor,

Please find enclosed the edited manuscript in Word format (**file name: 5806-revised 20131022.doc**).

**Title:** Scotomas in molecular virology and epidemiology of hepatitis C virus

**Author:** Yue Wang

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 5806

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) 02462702 reviewer's comments: This is a very nicely written review article. I just wonder if some more discussion on different HCV genotypes would be relevant here.

Answer: Thank you very much for this comment. As you commented, it is better to add more information regarding HCV genotypes. While, I think other virologists will be concerned on this topic since series invited reviews on HCV will be published simultaneously in a special issue of WJG.

(2) 00008590 reviewer's comments: Grammatical errors requiring minor revision, see attached file. Otherwise excellent paper.

Answer: Thank you very much for your comments and kindly revision on my manuscript. This revised manuscript was checked by two professional English virologists.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

*Yue Wang MD PhD*
