

ANSWERING REVIEWERS

October 30, 2013

Dear Editor,

Please find enclosed the edited manuscript in Word format.

Title: Epilepsy triggered by mefloquine in an adult traveler to Uganda

Authors: Federico Gobbi, Andrea Rossanese, Dora Buonfrate, Andrea Angheben, Chiara Postiglione, Zeno Bisoffi

Name of Journal: *World Journal of Clinical Cases*

ESPS Manuscript NO: 5807

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewers:

- We described the type of seizures, the antiepileptic treatment and the antiepileptic chemoprophylaxis, and we added the EEG and brain MR findings.
- We substituted "during flight back after apparent recovery, for "full recovery"
- In the introduction epidemiological data about the incidence of epilepsy related to mefloquine were included
- We added the references suggested by the reviewer.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Clinical Cases*

Sincerely yours,

Federico GOBBI, MD, DTM&H, PhD
