Central Hyperthermia Treated with Bromocriptine

<https://www.hindawi.com/journals/crinm/2017/1712083> ▾

Central hyperthermia is common in patients with **brain injury**. It typically has a rapid onset with high temperatures and marked fluctuations and responds poorly to antibiotics and antipyretics. It is also associated with worse outcomes in the **brain injured patient**. Recognizing this, it is important to aggressively manage it. **Case Report** .
