Dear Editor,

**Title:** Phase I Study of Postoperative Radiotherapy Combined with Capecitabine for Gastric Cancer

**Author:** Xin Wang, Jing Jin, Ye-Xiong Li, Hua Ren, Hui Fang, Shu-Lian Wang, Yue-Ping Liu, Wei-Hu Wang, Zi-Hao Yu, Yong-Wen Song, Xin-Fan Liu

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 5849

The manuscript has been improved according to the suggestions of reviewers:

1 Firstly, the format of the manuscript has been updated according to the journal requirements.

2 Revision has been made according to the suggestions of the reviewer

(1) "How sample size for this phase I was calculated ? or you treated consecutive patients?"

To clarify, we treated consecutive patients.

(2)" It would be nice if you provide figures for radiation therapy techniques."

A figure that describes the radiation therapy techniques has been added (Figure 1 in

the revised manuscript).

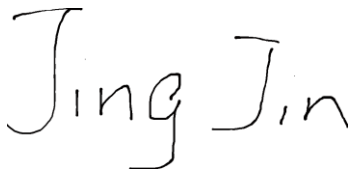

(3) "I could not see OS and DFS survival curves."

The OS curve has been inserted(Figure 2), but not that for the DFS rate. In this study, only 12 patients (67%,12/18) underwent a R0 resection, and therefore DFS could not be calculated.

3 The references and typesetting have been corrected.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,
