Association of Enterovirus D68 with Acute Flaccid Myelitis ...
<https://wwwnc.cdc.gov/eid/article/25/9/19-0468> -
Acute flaccid myelitis (AFM) is a polio-like disease that results in paralysis in previously healthy persons. Although the definitive cause of AFM remains unconfirmed, **enterovirus D68** (EV-D68) is suspected based on 2014 data demonstrating an increase in **AFM cases** concomitant with an EV-D68 outbreak. We examined the prevalence in children and the molecular evolution of **EV-D68** ...
