I found the authors did not provide the original figures. Please provide the original figure documents. Please prepare and arrange the figures using PowerPoint to ensure that all graphs or arrows or text portions can be reprocessed by the editor	Thank you for this comment. We provided the original figures with the aside mentioned corresponding names.	We submitted the following files: <ul style="list-style-type: none"> - 58753-Figure 1 - 58753-Figure 2
I found the authors did not add the full PMID and DOI in the reference list. Please provide the PubMed numbers and DOI citation numbers to the reference list and list all authors of the references. Please revise throughout.	We thank you for the accurate comment. We forgot to mention the full PMID, full authors list and DOI and added this to all references.	References changed, please note: <ul style="list-style-type: none"> - For reference number 2, no DOI or PMID is available, since this journal does not work with DOI. (same reference was used before in our article with PMID: 33134107 in the World Journal of Orthopedics without both the DOI and PMID. - For reference number 3, no DOI or PMID is available, since this is an Annual Report of the Dutch National Arthroplasty Register. - For reference number 25, no DOI or PMID is available, due to an online publication.

The point of the study is interesting and valuable. However, I doubt whether the sentence "This 10-years follow-up study showed higher wear rates in CoC with cup inclination as a predictive factor for wear. " in the core tip part is really consistent with the results of this study.	We would like to thank you very much for the accurate comment about the core tip of our submission. We made a mix-up between CoC and CoPE and therefore corrected the sentence as stated aside.	<u>Line 100:</u> Changed CoC to CoPE: 'This 10-years follow-up study showed higher wear rates in CoPE with cup inclination as a predictive factor for wear.'
