Dear Professor Lian-Sheng Ma,

Please find enclosed the edited manuscript in Word format (5876-Moyat et al no tracked changes and 5876-Moyat et al tracked changes).

Title: Immune responses to *Helicobacter pylori* infection

Author : Moyat Mati, Velin Dominique

Name of Journal : *World journal of Gastroenterology*

ESPS Manuscript NO: 5876

The manuscript has been improved according to the suggestions of reviewers:

1. Format has been updated.
2. Revision has been made according to the suggestions of the reviewer
  - a. A figure describing the immune responses to Helicobacter infection has been incorporate to the manuscript.
  - b. The length of the conclusion has been reduced.
  - c. Autoantibodies production has been introduced in the text.
  - d. All the minor comments of reviewer 024411485 have been addressed.

3. Although other comments of the reviewers were highly valuable, we have the feeling that it is out of the scope of our review to discuss carcinogenesis (see point 2 reviewer 02441335). In addition many recent reviews already described the immune to major virulence factors and the Nod1 activation (see first comment of reviewer 02441485).
4. References and typesetting were corrected.

Hoping that our manuscript is now acceptable for publication in *World journal of Gastroenterology*

Sincerely yours

Dominique Velin,
