

# Review Certificate

**No.:2020081206**

To whom it may concern:

This memo certifies that one of our clients has contracted our academic editing service for the following manuscript title:

**Misdiagnosis of ligamentous fibromatosis of the small mesenteric: A case report and literature review**

The English review was conducted with a two-stage process. One junior editor first reviewed the file, and a senior editor conducted a final and more thorough review. All of our editors are native English-speaking professionals.

Documents receiving this certification should be English-ready for publication. However, the author was free to accept or reject our suggestions and changes by himself.

We would like to emphasize that our service targets grammar and language edition, but not rewrite the documents from scratch. If you are dissatisfied with specific revisions, please contact the email [iepingmed@163.com](mailto:iepingmed@163.com) or website <http://www.aiyiping.com>
