Object : submission of solicited article ID 02817363 to World Journal of Diabetes

I undersigned, Angelo Parini, director of the UMR 1048, certifies that Dr. Carpené C., senior researcher at INSERM, and DR G. Tavernier, scientific investigator from CNRS, receive an annual and recurrent endowment from the INSERM for the Institut des Maladies Métaboliques et Cardiovasculaires for performing part of their research, alongside their granted projects.

The study submitted to publication by Carpené C. as corresponding author was approved by the Institutional Review Board of Institut des Maladies Métaboliques et Cardiovasculaires, I2MC Toulouse, France. It belong to a general approach on biogenic and dietary amines started in 2005 that was not granted or supervised by other entities.

Angelo Parini

Head of Institut des Maladies Métaboliques et  
Cardiovasculaires:

Angelo PARINI
