### Extrahepatic bile duct regeneration in pigs using collagen ...

<https://www.sciencedirect.com/science/article/pii/S014296121200275X>

Jun 01, 2012 · **Extrahepatic bile duct regeneration in pigs** using collagen scaffolds loaded with human collagen-binding bFGF. ... **Reconstruction of extrahepatic bile duct** is important after surgery caused iatrogenic injuries or lesion resection caused tissue loss , , ... Y. NoseThe need to develop **artificial bile ducts**. Artif Organs, 19 (1995), pp. 115-116.

### Regeneration of extrahepatic bile ducts by tissue ...

<https://link.springer.com/article/10.1007/s10047-011-0590-8> ▼

Jul 23, 2011 · With the widespread adoption of laparoscopic cholecystectomy and living-donor liver transplantation in recent years, complications involving the biliary system, stenosis in particular, are increasing. Various invasive and non-invasive techniques are now available for the treatment of biliary stenosis, but all are compromised by a high risk of recurrence and other problems.

### Repair of a common bile duct defect with a decellularized ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5192268>

Dec 28, 2016 · An approximately 1 cm segment of the common **bile duct** was excised from all the **pigs**. The defect was repaired using a 2 cm long decellularized ureteral graft over a T-tube (T-tube group, n = 6) or a silicone stent (stent group, n = 6). Six **pigs** underwent **bile duct reconstruction** with a graft alone (stentless group).
