November 14th, 2013

To Whom It May Concern:

The purpose of this letter is to certify that Dr. Elvira Garza-Gonzalez recently received a professional English language editing service from our company, Write Science Right™, for a paper entitled "*A review of Helicobacter pylori diagnosis, treatment, and methods to detect eradication*" authored by Elvira Garza-Gonzalez, Guillermo Ignacio Perez-Perez, Garza Hector Jesus Maldonado, and Francisco Javier Bosques-Padilla (order # 131102-3). All grammatical/syntactical errors and awkward verbiage have been revised to make the paper ready to submit for publication review. The paper was generally well organized as submitted, requiring no deep structural editing. Our editor had some minor queries for the author to clear up in the edited document, but they should not preclude review. Feel free to contact me if you have any questions.

Best Regards,

A handwritten signature in dark ink, appearing to read 'Ann Power Smith'.
