Feb 14, 2018 · Over the years, *Acinetobacter baumannii*, which is associated with post-neurosurgical meningitis and ventriculitis, has increasingly been regarded as an important nosocomially acquired pathogen [1, 3]. Statistical data showed that 3.6–11.2% of post-neurosurgical meningitis cases are caused by *A. baumannii* [2, 4]. Antimicrobial-resistant *A. baumannii* are divided into three categories: ...
