[The Right Liver Lobe Size/Albumin Concentration Ratio in ...](#)

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC6488492>

We aimed to see the right liver lobe/albumin ratio in identifying esophageal varices among patients with cirrhosis caused by hepatitis B and C. METHODS A cross-sectional study was conducted among all indoor patients admitted to the Department of Internal Medicine, Pakistan Atomic Energy Commission, General Hospital, Sector H-11/4 Islamabad ...

In addition, LSPS, which is a score developed for diagnosing cirrhosis and high-risk esophageal varices in patients with hepatitis B virus-related chronic liver disease [10, 25], recently exhibited a good performance for detecting CSPH ; and this finding was also confirmed in our study. Thus, if LS and LSPS can be successfully measured, they ...
