SPECIFIC COMMENTS TO AUTHORS

Dear Dr.Ken Sugimoto, It has been a pleasure to review the case report entitled "Tuberous sclerosis patient with neuroendocrine carcinoma of the esophagogastric junction-a case report" which was written by your team. This is a very articulate manuscript, giving all the necessary details of the patient and discussing the important aspect of management. Within the text, the use of "Lymph Node Swelling" to describe tumor related enlargement of lymph nodes is not appropriate. Please use the term enlarged lymph nodes instead. After this correction, your manuscript should be ready for publication. Best Wishes, Sanem Guler Cimen

SPECIFIC COMMENTS TO AUTHORS

As it is a rare neoplasm, the description of cases is important to understand the natural history of diseases, causal factors, survival etc. For this reason I think the publication is valid. The article is well written and the references, although few are current.
