

PEER-REVIEW REPORT

Name of journal: World Journal of Clinical Oncology

Manuscript NO: 59376

Title: Overall and Cause-Specific Survival for Mucoepidermoid Carcinoma of the Major Salivary Glands: Analysis of 2,210 Patients

Reviewer's code: 05235167

Position: Editorial Board

Academic degree: FACS, MBChB, MD, MSc, PhD

Professional title: Assistant Professor, Consultant Physician-Scientist, Doctor

Reviewer's Country/Territory: Egypt

Author's Country/Territory: United States

Manuscript submission date: 2020-09-21

Reviewer chosen by: AI Technique

Reviewer accepted review: 2020-09-21 09:44

Reviewer performed review: 2020-09-22 09:02

SPECIFIC COMMENTS TO AUTHORS

This study is a population-based studies of mucoepidermoid CA of the major salivary glands including more than 2000 patients. End result of the study is overall survival and cause specific survive. focused on identifying prognostic factors effecting OS and CSS. The limitations of the study is already cited by the authors and we think that they did not affect the quality of the work. Stasticak work is well done. References are appropriate and up-to-date. Discussion is well written and systematic.
