

ANSWERING REVIEWERS

January 13, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 5939-revised.doc).

Title: Laryngopharyngeal Reflux and Helicobacter Pylori

Author: Taner Yılmaz, Münir Demir Bajin, Rıza Önder Günaydın, Serdar Özer, Tefvik Sözen

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 5939

The manuscript has been improved according to the suggestions of reviewers:

1. Normal larynx treated by PPI is demonstrated in figure 4.
2. LPR in childhood and risk factors related with HP infection is added to the discussion section.
3. "2 weeks of PPI free period" is corrected as "4 weeks of PPI free period" on page 5.
4. This article is an invited review and the topic of the article was decided in conjunction with the editorial board. Also the authors are all otolaryngologists therefore this article emphasizes the relationship between LPRD and HP. The reviewer's suggestions regarding the form of the article is important however the authors are obliged to the predefined topic and form.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Münir Demir Bajin, MD
